

# AUDIO CONFERENCING FOR THE HEAR AND NOW

Virtual communication needs to be crystal clear and delivered in an engaging format to effectively reach today's conference participants. WisLine Audio services provide the premium voice quality, ease-of-use and enhanced features you need to communicate clearly.

We offer two services to cover your audio needs for everything from impromptu conference calls to large virtual events.

## WisLINE

ANYTIME AUDIO

Reservationless audio conferencing. Self-service convenience with 24/7 support. Ready when you need it.

## WisLINE

AUDIO PLUS

Reserved, managed audio conferences. Concentrate on your content while we handle the conference details for you.

Call or email WisLine Services to get started.

# WISLINE

---

AUDIO

TWO VERSATILE AUDIO SOLUTIONS  
FOR YOUR CONFERENCE NEEDS.

## WISLINE

ANYTIME AUDIO

### Reservationless Audio Conferencing

Connect any time or place. Participants dial in at an appointed time, enter a passcode and your conference begins.

### High-quality audio with self-service convenience

- Complete control over your meeting with the easy-to-use moderator tools
- Up to 150 lines available for use at any time
- Personal passcode which will never change
- Online portal to manage your account and monitor conferences
- 24/7 support and reservationless subscription accounts
- International toll-free dial-in for participants

### Excellent value

- Only 2.9 cents per minute per line. No extra or hidden fees
- Toll-free access for hosts and participants
- FREE recording and file download
- FREE 10-day recording file storage

## WISLINE

AUDIO PLUS

### Reserved, Managed Audio Conferencing

When you need to be assured that your conference will take place on time and with high touch service, WisLine Audio Plus is a must. Save time and avoid stress when we handle your conference details for you. Choose from several conference options based on the level of assistance you need.

### High quality audio with advanced service and features

- Nearly unlimited number of phone lines
- Operators monitor your conference for quality and offer assistance for both moderators and participants
- International toll-free dial-in or operator-dialed
- Pre-conference meetings for speakers
- Online host controls
- Participant roll call and participant lists
- Interactivity with participants includes registration pages, Q&A and polling
- Recording, digital playback and transcription
