

WEB CONFERENCING FOR CONTENT-RICH COMMUNICATION

WisLINE
WEB

Deliver the same powerful presentation virtually as you would in person with WisLine Web. Using just a web browser and a phone or Internet audio (VoIP), you can share documents, applications and multimedia as well as actively engage participants and receive real-time feedback and interaction. Integrated webcam video allows you to personalize your conference and engage your audience, and mobile applications allow you to connect with any device.

Choose between three feature-rich web conference applications:

- **WisLine Anytime Web**
- **Cisco WebEx**
- **Blackboard Collaborate**
